457 Deferred Compensation Plan
2017-2019
The State of North Dakota 457 Deferred Compensation Plan is a voluntary, supplemental retirement savings program designed to increase your personal savings for retirement and reduce your current taxable income. It is based on guidelines in Section 457(b) of the IRS Code. The plan is administered by the North Dakota Public Employees Retirement System and its Board.

This summary is intended to provide general information and may not be considered a legal interpretation of IRC Section 457 regulations. Statements contained in this publication do not supersede the North Dakota Century Code, Administrative Code, IRS code, Plan Document or restrict the authority granted to the Retirement Board.

Eligibility
Employees of the State of North Dakota and employees of participating political subdivisions are eligible to participate in the plan. To be eligible, you must be a permanent employee working at least 20 or more hours a week for 20 or more weeks in a calendar year and filling a position that is regularly funded and is not of limited duration. Legislators are eligible to participate in the plan. Temporary employees and independent contractors are not eligible to participate in the plan.

Tax Deferred Contributions
The program permits you to defer a portion of your salary on a pretax basis through convenient payroll deductions. You can’t miss what you don’t see. The amount deferred to your investment account and the income or gains on those investments are not taxable until you begin to withdraw money from the account, generally at retirement, at which time the withdrawals are taxed as ordinary income.

Enrollment
You may enroll in the Plan at any time. To enroll you must first select and contact one of the eligible providers for the plan. The provider representative you select will assist you in completing the required forms to open an account. You must complete a NDPERS 457 Deferred Compensation Plan Enrollment/Change form SFN 3803, to authorize your automatic payroll deduction. Please note that IRS regulations require you to make your deferral election in the month prior to month you will earn the money.

Contributions
The minimum contribution is $25.00 per month. The maximum regular annual contribution limit is the lesser of 100% of compensation or $18,000 in 2017 (adjusted for cost-of-living in subsequent years). You may change your contribution amount at any time or suspend contributions and start again at a later date.

Selecting an Investment Provider
You may select from among 9 different provider companies comprising more that 250 investment fund options by reviewing our Provider Representative List. You can obtain information about the eligible plan provider companies and investment choices by accessing the Investment Options Summary booklet available on the NDPERS web site. The Investment Options Summary book will provide you with details about the eligible provider companies, their investment options, annual expense fees, and the historical rates of returns. Also included is a list of agents authorized to assist you with enrollment and your investment allocations.
**Expedited Enrollment Option**

The expedited enrollment does not require you to make a decision regarding the amount of contribution, investment allocation, or selecting a provider company and agent. Just complete the 457 Deferred Compensation Plan Quick Enrollment Form, SFN 54362 and you will automatically be enrolled for the minimum contribution of $25 a month which will be invested with the NDPERS Companion Plan. The Companion Plan is a NDPERS trust fund and the NDPERS Board selects and monitors the investments offered under this plan. You may also contact a TIAA representative direct at 1-800-732-8353 to assist you and to explain other investments options.

**PEP Participation**

When you enroll in the deferred comp plan you are automatically enrolled in PEP. PEP allows you to vest in up to 4.00% of the employer contribution paid into the defined benefit retirement plan pool of funds and have this vesting percentage credited to your individual member account in the defined benefit plan. For every dollar you put in the deferred compensation plan, NDPERS will add one dollar to your member account balance up to the vesting maximum of 4%. This can significantly increase the amount of money available in your member account if you choose to “cash in” your retirement account, or roll it over into another pension plan when your North Dakota Public service ends.

**Saver’s Credit**

A Saver’s Credit is a tax credit that can help offset the cost of the first $2,000 you voluntarily contribute to a 457 deferred compensation account. It applies to incomes up to $25,000 ($37,500 for head of household) and married couples with incomes up to $50,000. The credit is the percentage of the qualifying contribution amount, providing the highest rate for taxpayers with the least income, as shown below:

<table>
<thead>
<tr>
<th>Credit Rate</th>
<th>Income: Married, joint</th>
<th>Income: head of Household</th>
<th>Income: Others</th>
</tr>
</thead>
<tbody>
<tr>
<td>50%</td>
<td>up to $30,000</td>
<td>up to $22,500</td>
<td>up to $15,000</td>
</tr>
<tr>
<td>20%</td>
<td>$30,001 – 32,500</td>
<td>$22,501 – 24,375</td>
<td>$15,001 – 16,250</td>
</tr>
<tr>
<td>10%</td>
<td>$32,501 – 50,000</td>
<td>$24,376 – 37,500</td>
<td>$16,251 – 25,000</td>
</tr>
</tbody>
</table>

The Saver’s Credit can be used in addition to other tax benefits that may result from retirement contributions.

**Catch-Up Contributions**

If you are close to retirement or over age 50, you may be able to contribute more than the regular contribution limit. There are two catch-up options available:

- **50+ Catch-Up**—Participants age 50 or older may contribute the maximum annual limit referenced above plus an additional $6,000 in 2017 (for a total of $24,000, adjusted for cost-of-living in subsequent years). This election may be made using the NDPERS 457 Deferred Compensation Plan Enrollment/Change form, SFN 3803.
- **3-Year Catch-Up**—Participants within 3 years of normal retirement date may contribute the regular maximum annual limit plus missed contributions from previous years up to $36,000 for 2017 (adjusted for cost-of-living in subsequent years). You may apply for this option by completing the Catch-Up Worksheet/Certification, SFN 51501.
Distribution or Payout Options at Separation of Employment
This includes retirement, disability, resignation, death or discharge. You must be off covered employment for thirty (30) days before a distribution will be processed. NDPERS will send you a notice acknowledging termination and send a copy to your agent/provider company. You must contact your provider representative to initiate distribution of your account. Distributions must begin no later than April of the calendar year after you attain age 70½ or are no longer employed, whichever is latest.

Distribution or Payout Options (while employed)
There are three circumstances under which you may obtain an in-service distribution:

- **Financial Hardship** — You must provide proof of financial hardship based on an unforeseen emergency. Strict federal guidelines determine approval. For an application you must contact the NDPERS office. Financial hardship requests and referred to the NDPERS Board for review and approval.

- **Deminimus Distribution** — Only available to participants with less than $5,000 in their account, who have not contributed to the plan in the previous 24 months, and have not previously received a deminimus distribution from the plan. To initiate this payout you must complete a Request for Deminimus Distribution, SFN 52051.

- **Qualified Domestic Relations Orders (QDRO)** — A QDRO is any judgment, decree or order issued by the court made pursuant to a North Dakota domestic relations law, and which creates or recognizes the existence of an alternate payee’s right to, or assigns to an alternate payee the right to receive all or a part of the benefits payable to the participating member. Prior to beginning or constructing a domestic relations order, your attorney should contact the NDPERS office to obtain a copy of the QDRO requirements or use the QDRO Model available on our web site.

Rollover/Transfer of Funds
The rollover/transfer options allow you to consolidate retirement funds from other sources. The NDPERS deferred compensation plan accepts a rollover of pretax funds from other eligible retirement plans including the 401(a), 401(k), 401(c) Keogh, 403(b), 457(b), FERS and IRAs. Plan to plan transfers are also allowed between eligible providers participating in the NDPERS deferred compensation plan. A rollover/transfer is a trustee to trustee transaction and is not a taxable event.

To initiate a rollover or plan to plan transfer of funds, just complete the NDPERS Rollover/Transfer form, SFN 50177.

Purchase of Service Credit
Purchase of service allows you to use eligible pretax monies from qualified plans to buy service in the 401(a) defined benefit retirement plan. Because the State’s deferred compensation is a qualified plan, you may rollover/transfer these funds to purchase service credit. The transfer of funds from the 457(b) deferred comp plan to the defined benefit retirement plan is not a taxable event. Plan to plan transfers for the purchase of service credit is also accepted from 401(a), 401(k), 401(c) Keogh, 403(b), 457(b), FERS and IRAs.

To initiate a purchase of service using a rollover/transfer of funds, you must contact NDPERS directly to complete form SFN 52059 Rollover/Transfer Request for Service Credit Purchases.

Additional information about the State of North Dakota 457 Deferred Compensation Plan is available on the NDPERS web site.
