SUMMARY OF INVESTMENT OPTIONS

NORTH DAKOTA EMPLOYEE'S RETIREMENT SYSTEM

Introduction

The information in this summary is organized into three sections. Section I details the investment options that are available through the NDPERS Deferred Compensation Companion Plan. Section II lists the other investment options currently available through the NDPERS Section 457 Deferred Compensation Plan. This information has been organized in alphabetical order by provider company. The investment objective, annual expenses and historical performance information is provided for each investment option. Due to the inception date of some investment funds, historical performance information is not available and is indicated with "N/A" (not available). Instances in which information was not provided by the provider companies are indicated by "N/P" (not provided). Section III lists the representatives you can contact at each provider company for more information as of the date this summary was published. Updates to the list of registered provider

representatives are published on the NDPERS website at the end of each quarter. The annual expense column includes fund expense ratios and any applicable fees to pay for service, distribution and marketing costs (12b-1 fees), operating expenses, asset management fees, separate account charges, or mortality and expense charges imposed by the provider. It does not, however, include any withdrawal, surrender or deferred sales charges or miscellaneous administrative fees. Whenever possible, withdrawal, surrender or deferred sales charges, etc. have been noted at the bottom of the page. Please refer to your prospectus or contact your provider company for more complete information. The column entitled "Other Fees" indicates whether additional information is footnoted below the table about fees and/or withdrawal provisions (Y=yes, N=no).

Performance results provided herein reflect all fund expense ratios and any applicable 12b-1 fees, operating expenses, asset management fees, separate account charges, or mortality and expense charges imposed by the provider company. They do not, however, reflect any withdrawal, surrender or deferred sales charges or account maintenance fees footnoted below each table in the sections entitled "Other Fees" and "Withdrawal Provisions".

Although all applicable fees for each provider company should be provided in this *Summary of Investment Options*, you should discuss fees in detail with a provider company representative.

The following abbreviations are used in the "Type of Investment" column on the following pages:
FA – Fixed Annuity
MF – Mutual Fund
VA – Variable Annuity
CF – Commingled Fund

ANNUITIES VERSUS MUTUAL FUNDS

Annuities

The investment options currently offered through the NDPERS Section 457 Deferred Compensation Plan are set up primarily as annuities, although some are offered in the form of mutual funds. Deferred annuities are essentially tax-sheltered accounts offered by life insurance companies. They come in two basic forms, fixed or variable, and offer different benefits each suited to achieving very different retirement objectives. Fixed annuities pay a fixed nominal interest rate per period and guarantee a minimum rate of return. Variable annuities can range from conservative to aggressive investments and pay a rate linked to the investment performance of some underlying portfolio; therefore, the returns of variable annuity contracts are not guaranteed by the offeror. Many variable annuities are invested in mutual funds as the underlying

investment. The annuity fund structure typically offers a guaranteed death benefit which provides safety of principal for beneficiaries. This structure results in an additional layer of fees above those that are paid for the underlying investment vehicle. Typically, the annual expenses associated with annuity solutions reflect a mortality and expense risk charge (insurance component, investment management expenses, administrative and recordkeeping charges, and declining surrender charges). Sales loads and marketing and distribution charges may apply but are often waived for institutional clients.

Mutual Funds

Mutual funds are registered with the Securities and Exchange Commission (SEC) and their prices and performance are usually reported daily in the newspapers. Commingled funds are pooled

investment vehicles that are similar to mutual funds but are not registered with the SEC and may or may not be reported in the newspapers.

Mutual funds can range from conservative to aggressive, and their values will fluctuate according to the volatility of the securities in which the funds are invested. Mutual funds do not offer a guaranteed death benefit; therefore, their fees do not include an insurance component. Typically, the annual expenses associated with mutual funds reflect the investment management expenses and administrative and recordkeeping fees charged by the provider company. Again, sales loads and marketing and

distribution charges may apply but are typically waived in the case of institutional accounts.

The investment funds that are available through the NDPERS Companion Plan consist of a series of mutual funds and a commingled fund. In the case of the Companion Plan, the annual fees charged by mutual fund organizations to pay for service, distribution, and marketing costs (12b-1 fees) are currently rebated back to participants by TIAA CREF. In addition, any front and deferred sales loads are currently waived by TIAA CREF.

The information included in this summary is strictly quantitative in nature and is intended to provide an evaluation of the returns and expenses associated with the investment options available through NDPERS deferred compensation program.

This summary does not present factors that are more subjective in nature such as: 1) the quality, availability and responsiveness of client service; 2) verification of the investment style underlying the investment options; 3) the longevity and stability of the investment professionals managing the investment options; and 4) internet access and voice response systems. These factors should also be taken into consideration when selecting provider companies and investment options. Please contact your provider companies to obtain this information.

Please keep in mind when reviewing the historical performance information that past performance does not guarantee future performance. This ***Summary of Investment Options*** is not a prospectus. It is only intended to provide basic information about the available investment options. Please contact the individual provider companies for a prospectus containing more detailed information.

The material presented in this Summary of Investment Options has been compiled from information supplied by the provider companies to the NDPERS Section 457 Deferred Compensation Plan. To the best of our knowledge this information is accurate and complete although we have not independently verified its accuracy or completeness.

SECTION II

SUMMARY OF INVESTMENT OPTIONS

NORTH DAKOTA PUBLIC EMPLOYEES RETIREMENT SYSTEM

SECTION 457 DEFERRED COMPENSATION PLAN

(INFORMATION CURRENT AS OF JUNE 30, 2020)

The NDPERS Board provides this Summary as a service to the deferred compensation participants to help them make an informed decision regarding their investments. The NDPERS Board has not examined the investment options described in Section II of this Summary, and makes neither recommendation nor warranty regarding those options. The investment options offered are those the individual provider companies have determined they will offer to the participants using the provider's services.

Unless otherwise noted, performance results provided herein reflect all fund expense ratios and any applicable 12b-1 fees, operating expenses, asset management fees, separate account charges, or mortality and expense charges imposed by the provider company. They do not, however, reflect any withdrawal, surrender, or deferred sales charges or account maintenance fees footnoted below each table in the sections entitled "Other Fees" and "Withdrawal Provisions."

Other Fees:

Withdrawal Provisions - None

*American Trust Center Fee: 0.60%

*Investment/Advisor: 0.50%

Termination/Distribution/In-Service Processing Fee \$85 paper; \$50 on-line

Transaction fees apply for the following services (fee quoted to participant at time of request): Certified mail, express delivery, cashier's check, wire transfers, and returned/lost/stop payment and reissued checks

QDRO Processing Fees: Review and Communication \$250; Account Division \$100; Alternate Payee Distribution \$85

American Trust Center (ATC) will track the trades and provide a warning notice when the shareholder hits the first violation and will block the second as defined below. The first time a shareholder completes a roundtrip transaction, defined as a buy in and sell out of greater than \$10,000 that occurs within a 30 calendar day period, a warning letter will be sent to the shareholder reminding them of the policy.

VANGUARD GNMA-ADM, VANGUARD HEALTH CARE-ADM, VANGUARD INDEX 500-ADM, VANGUARD MID CAP IDX-ADM, VANGUARD REIT INDEX ADM, VANGUARD SELECTED VALUE, VANGUARD SMALL CAP VALUE INDEX ADM, Life Strategy-CONSERVATIVE, Life Strategy-GROWTH, and Life Strategy-MODERATE, VANGUARD TARGET DATE INCOME, 2015, 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055, 2060, 2065:

A round trip is defined as a buy and sell that occur within 30 days. Excessive trading violation will result in a trading restriction period of 30 days. Maximum of 1 round trip allowed per 30 days period.

T ROWE PR SCI & TECH

Maximum of 1 round trip allowed per 30 days period. In addition to restricting transactions in accordance with the 30-Day Purchase Block, T. Rowe Price may, in its discretion, reject any purchase or exchange into a fund from a person whose trading activity could disrupt the management of the fund or dilute the value of the fund's shares, including trading by persons acting collectively. Such persons may be barred from further purchases of T. Rowe Price funds for a period longer than 30 calendar days or permanently.

LAUDUS GROWTH INVESTORS (Large Cap Growth)

The Trust reserves the right, in its sole discretion, to suspend the offering of shares of the funds or to reject purchase orders when, in its judgment, such suspension or rejection would be in the best interests of the Trust or the funds. The Trust discourages market timing and maintains procedures designed to provide reasonable assurances that such activity will be identified and terminated, including the imposition of the redemption fee. You may be subject to a fee of 2% if you redeem or exchange your shares within 30 days of purchase. Purchases of the funds' shares may be made in full or in fractional shares of the fund (calculated to three decimal places). In the interest of economy and convenience, certificates for shares will not be issued.

AMERICAN TRUST CENTER INVESTMENT OPTIONS

For more information, call American Trust Center at (701) 355-4820 or Refer to of Representatives in Section III

JPMORGAN EQ INC (Large Value)

Excessive trading violation will result in a trading restriction period of 90 days. Maximum of 1 round trip allowed per 60 days period.

JPMORGAN SM CAP EQ (Small Cap Growth)

Excessive trading violation will result in a trading restriction period of 90 days. Maximum of 1 round trip allowed per 60 days period.

BAIRD MID CAP INST

In addition, if market timing is detected in an omnibus account held by a financial intermediary, the Funds may request that the intermediary restrict or prohibit further purchases or exchanges of Fund shares by any shareholder that has been identified as having violated the Market Timing Policy. The Funds may also request that the intermediary provide identifying information, such as social security numbers, and trading information about the underlying shareholders in the account in order to review any unusual patterns of trading activity discovered in the omnibus account.

WESTERN ASSET CORE BOND FUND IS (Intermediate Core Bond)

The policies apply to any account, whether a direct account or accounts with financial intermediaries such as investment advisers, broker/dealers or retirement plan administrators, commonly called omnibus accounts, where the intermediary holds fund shares for a number of its customers in one account. The fund's ability to monitor trading in omnibus accounts may, however, be severely limited due to the lack of access to an individual investor's trading activity when orders are placed through these types of accounts. There may also be operational and technological limitations on the ability of the fund's service providers to identify or terminate frequent trading activity within the various types of omnibus accounts. The distributor has entered into agreements with intermediaries requiring the intermediaries to, among other things, help identify frequent trading activity and prohibit further purchases or exchanges by a shareholder identified as having engaged in frequent trading.

FIDELITY® BALANCED K (Lifestrategy)

Shareholders with two or more roundtrip transactions in a single fund within a rolling 90-day period will be blocked from making additional purchases or exchange purchases of the fund for 85 days. Shareholders with four or more roundtrip transactions across all Fidelity® funds within any rolling 12-month period will be blocked for at least 85 days from additional purchases or exchange purchases across all Fidelity® funds. Any roundtrip within 12 months of the expiration of a multi-fund block will initiate another multi-fund block. Repeat offenders may be subject to long-term or permanent blocks on purchase or exchange purchase transactions in any account under the shareholder's control at any time. In addition to enforcing these roundtrip limitations, the fund may in its discretion restrict, reject, or cancel any purchases or exchanges that, in the Adviser's opinion, may be disruptive to the management of the fund or otherwise not be in the fund's interests.

BANK OF NORTH DAKOTA INVESTMENT OPTIONS

Other Fees: The returns shown above (average annual returns, except for year-to-date returns which are annualized) reflect the performance of the funds for the periods indicated that would have been realized IF AND ONLY IF a shareholder had invested in the Fund PRIOR to the first day of the period. These returns include no impact of any sales load as the North Dakota Public Employees Retirement System purchases are made at 0% sales charge.

Withdrawal Provisions: None

SECTION III
PROVIDER REPRESENTATIVES
NORTH DAKOTA PUBLIC EMPLOYEES RETIREMENT SYSTEM
SECTION 457 DEFERRED COMPENSATION PLAN

(INFORMATION CURRENT AS OF JULY 31, 2020)

This list is not inclusive of all sales representatives eligible to provide investment services for the State of North Dakota Deferred Compensation Plan. A sales representative, with any of the listed Provider Companies, who is licensed by the North Dakota State Securities Commissioner or the North Dakota State Insurance Commissioner or both, is eligible to provide investment services under the plan. This list is updated annually.

Contact the North Dakota Securities Department to check the background of an investment professional before doing business.
